BSc Hons Computing (First Class with Honours), 2025, *University of Greenwich*

A-Levels Level 3: Computing, *Zespol szkol nr 2 im. Jana Dlugosza w Wieluniu*

Professional Experience

Responsiv Solutions Ltd, Bracknell, United Kingdom **09/2025 – Present**

Technical Consultant **04/2026 - Present**

- Develop and maintain applications using Java, following object-oriented programming principles and software engineering best practices.
- Provide technical consultancy and implementation support for IBM Guardium Data Protection, assisting clients with deployment, configuration, troubleshooting, and platform optimisation.
- Participate in code reviews, defect resolution, and continuous improvement initiatives to ensure high-quality software delivery.
- Analyse customer requirements and deliver tailored software solutions that improve performance, usability, and operational efficiency.

Graduate Software Developer **09/2025 - 04/2026**

- Develop and maintain applications using Java, following object-oriented programming principles and software engineering best practices.
- Produce comprehensive technical documentation, implementation guides, and knowledge base articles to support customers and internal engineering teams.
- Debug, test, and optimise Java and TypeScript applications to improve reliability, maintainability, and scalability.

Upwork Freelancer, London, United Kingdom **04/2025 – 08/2025**

Programmer

- Developed robust and scalable code in Python, JavaScript, HTML, and CSS to ensure clean, efficient, and maintainable solutions for seamless application performance.
- Engineered machine learning models to analyse data and drive intelligent decision-making, while enhancing system accuracy and automation.

- Optimised front-end development by implementing responsive designs and interactive features and improving user experience and engagement.
- Streamlined software maintenance through structured coding practices, while reducing debugging time and accelerating project delivery.

Four Seasons at Park Lane, London, United Kingdom **08/2021 – 08/2025**
Laundry Attendant

- Managed timely collection and distribution of deliveries to ensure the efficient logistics operations and adherence to schedules.
- Collaborated with cross-functional teams to coordinate towel and linen deliveries, while also maintaining seamless service standards.
- Performed house porter duties as needed, including facility maintenance and support tasks.

Profi-Tech Sp. z o.o., Wielun, Poland **09/2019 – 06/2020**
Sales Assistant/Technician

- Diagnosed and resolved hardware and software issues by providing technical support to minimise downtime and improve system functionality.
- Supported team members with troubleshooting and guidance, while fostering collaboration and knowledge sharing for smoother operations.
- Managed high-volume customer enquiries with efficiency and professionalism for high satisfaction.
